

Swedish Windpower Association

Swedish Windpower Association represents all producers, ranging from smaller wind power owners to major energy companies. We are an established referral body with over 30 years of experience, we are an interesting party in energy Sweden. We want to be even bigger, better and stronger. During 2018, we will develop and complement our offerings to meet also the international investors who want to enter the Swedish market.

The magazine; Tidningen Svensk Vindkraft

The magazine is published 5 times a year by the Swedish Windpower Association.

With an advertisement in the magazine you will reach all windpower stakeholders in Sweden as wind power owners and co-owners, electricity companies, contractors, projectors, government agencies, county boards, libraries, ministries, parliamentarians, newspapers and other people interested in wind power.

Seminars and conferences

The association is an experienced event organizer

I.e have we organized Winterwind International Wind Energy Conference annually since 2008. A conference reaching around 350 participants from 20 countries.

www.winteriwnd.se and RE-Scandinavia a conference about renewable energy power purchase agreements (Corporate PPAs). Organized by the Swedish Windpower Association and the Danish Wind Energy Association. Re-scandinavia

Members of Danish and Swedish Windpower Association get a 10% discount on standard prices.

Nordic renewables and Electricity Certificates report

If you have an interest in the Nordic renewable market, don't miss this opportunity to take part of the most important price effecting news and forecasts. This comprehensive report is much appreciated among Swedish windpower owners, banks and energy companies. Published 5 times per year.

More info about the report & offers: In English: www.bodeckerpartners.com/en/reports/

Members of Swedish Windpower Association get a 15% discount.
